

## Determinaciones Laboratorio Químico

| Test Items   | Unit      | Norma                        |
|--|-----------|------------------------------|
| Appearance – aspecto visual                        |           | ASTM D1524                   |
| Density (20°C) – densidad                          | gr/ml     | ASTM D1298                   |
| Kinematic viscosit – viscosidad 40°C               | cst       | ASTM D445                    |
| Flash point (open cup) - punto de inflamacion      | °C        | ASTM D92                     |
| Acid value – numero de neutralizacion              | mgKOH/gAc | ASTM D974                    |
| Active sulfur- azufre corrosive                    |           | ASTM D1275 met.B / IEC 62535 |
| Sludge - lodos                                     | %         | IEC 60422A                   |
| Dielectric loss (90°C) – tangente delta            | %         | IEC 60247 / ASTM D924        |
| Breakdown Voltage – rigidez dielectrica            | kV        | ASTM D877 / IEC 60156        |
| Water content – contenido de humedad               | ppm       | ASTM D1533                   |
| Interfacial tension – tension interfacial          | D/cm2     | ASTM D971                    |
| Furans Content – contenido de furanos              | ppm       | ASTM D5837                   |
| PCB content – contenido de pcb                     | ppm       | ASTM D4059                   |
| DBDS content – contenido de DBDS                   | ppm       | Met. GC-ECD                  |
| Inhibitor content – contenido de inhibidor         | %         | IEC 60666                    |
| Oxidation stability – estabilidad a la oxidacion   |           | IEC 61125                    |
| Gas Content – contenido de gases totales           | % v/v     | METODO IP                    |
| Disolved gas analysis - cromatografia fase gaseosa | ppm       | ASTM D3612                   |
| Degree of polymerization - grado de polimerizacion |           | ASTM D4243                   |
| Color - color                                      |           | ASTM D1500                   |
| Moisture in paper - humedad en solido              | %         | CURVA WESTINGHOUSE           |
| Pasivator detetion / analisis de pasivadores       | mg/ kg.   | IEC 61198                    |
| Particle count / conteo de particulas              |           | ASTM D6786                   |
